

**RAM**

**RAM PICKUPS**

## **A STEP-BY-STEP INTRODUCTION TO RAM 1500 CAPABILITY AND COMFORT.**

More and more, Ram is taking the rationale behind full-size pickup ownership—unyielding capability based on both brains and brawn—and adding touches engineered to put Ram 1500 in top-tier consideration. Here's Ram 1500 at a glance: outstanding powertrain choices that enable excellence in towing and hauling. Breakthrough suspension technology to ramp up handling and passenger comfort. Impressive and user-friendly phone technology. And interior designs that deliver exceptional comfort.

**TOUGH FRAME.** If you're going to build on anything, build on strength. In the case of Ram 1500, we're talking a high-strength steel core, eight ultra-tough crossmembers and a hydroformed tubular front frame unit, also of high-strength steel. Some areas simply don't require heavy steel, so we employ down-gauged yet stronger steel—a smart move that further contributes to the fuel-sipping performance.

**THE CARGO BOX.** Also made from high-strength steel, the Ram cargo area features a standard CHMSL-mounted light with available rear LED bed lighting. Of course, what sets Ram apart is the available RamBox® Cargo Management System, a solution that completely changes the rules about hauling and storing.

**SUPER-CAPABLE TOWING.** Expect remarkable capability here—because Ram 1500 was designed to deliver. Opt for the factory-installed Class IV hitch receiver, which bolts directly to the high-strength steel frame. The trailer connector is easily accessible, with an adjacent lamp making night connections a breeze, and all models provide a 4- and 7-pin connector as standard equipment.

# WHERE THE BEST

**FUEL EFFICIENCY.** Your Ram 1500 was designed to deliver tens of thousands of kilometers over the years; that puts an emphasis on getting the most from every drop of fuel.

Which is why fuel-efficient touches are evident in virtually every aspect of Ram 1500, from the sculpted aerodynamic body that glides through air to available assets like wheel-to-wheel side steps and the Active Grille Shutters.

As with towing, powertrain performance is definitive. Ram offers the gas-powered workhorse: the 5.7 HEMI® V8, with its fuel-saving Multi-Displacement System (MDS) turning the V8 into a gas-sipping 4-cylinder during highway cruising.

**INTERIOR COMFORT.** No matter which Ram 1500 you're choosing, driver and passenger comfort is key to the ride. Anticipate the unexpected here.

Every interior is the result of thoughtful and intuitive design. From window controls and door handles to the dashboard-mounted Rotary Shifter for the TorqueFlite® 8-speed automatic, buttons and controls are easily operated. Storage in every model is abundant; fold-flat cargo load floors are available, and Crew Cab models up the convenience and security with in-floor storage bins.

From the performance-oriented seats of the Ram 1500 Sport to the premium leather interior of Ram 1500 Limited, this is where style and comfort never take a back seat.

**ONGOING INNOVATION.** Our commitment to innovation proves that creative thinking is one of many pillars contributing to the success of Ram 1500.

Fact: this pickup pioneered a raft of innovations that have changed how people think about trucks. Ram stands alone with its multilink coil spring rear suspension and the available five-mode Active-Level™ Four-Corner Air Suspension System. The available RamBox® Cargo Management System remains a Ram pickup advantage, and Ram 1500 was the first to introduce a light-duty diesel option—the groundbreaking 3.0 EcoDiesel V6 powerplant.

The best way to see Ram 1500 innovation first-hand? Simply experience it for yourself—in a test drive.

# COMES TOGETHER.

# FOR CONCRETE DURABILITY

**THE MULTILINK COIL SPRING REAR SUSPENSION.** Without exception, our competition still employs leaf-spring technology. Ram lets you leave it where it belongs—namely, in your rearview mirror. The Ram 1500 coil spring rear suspension offers a degree of strength and durability others just can't match. The upshot? More lateral stiffness and greater vehicle control. Fact: the ride quality is so good, this engineering is the long-preferred spring configuration for rail cars.

**THE FRONT FRAME/SUSPENSION.** The hydroformed tubular front frame employs high-strength steel; with our long-proven short-/long-arm front suspension with coil springs and stabilizer bar, the technology ensures exemplary handling and road manners.

# COUNT ON RAM EVERY TIME.

**THE FRAME.** Less weight contributes to fuel efficiency. Where heavy steel isn't required, we opted for down-gauged but stronger steel in the frame. With its eight crossmembers augmenting the structural integrity, this full-size pickup delivers fuel-sipping performance.

**THE ACTIVE GRILLE SHUTTERS.** This available asset has proven itself beyond doubt. The shutters instantly adapt to speed, load and engine needs to provide ideal engine cooling—while simultaneously reducing aerodynamic drag to help improve the fuel efficiency numbers.

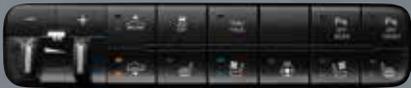

**THE STEEL BED.** No question about it: aluminum definitely plays a part in truck design—but not here. Ram 1500 utilizes high-strength steel where you really need it—in back, where cargo is loaded onto resilient and uncompromising steel.

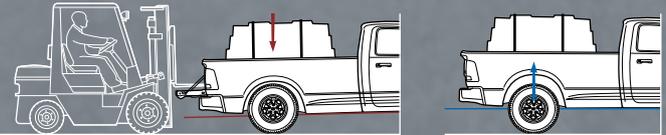

# MEET THE ONE SUSPENSION

## THE ACTIVE-LEVEL™ FOUR-CORNER AIR SUSPENSION SYSTEM.

**KEEP IT ALL ON THE LEVEL. ACTIVE-LEVEL ENSURES IT.** Available for Ram 1500—and helping deliver improved fuel efficiency, responsive road manners, and fantastic ride and handling. Detailed at right, the driver-selectable modes include two Off-Road modes, the people- (and cargo-) friendly Entry/Exit Mode, and the automatic Aero Mode when cruising.

▶ Dashboard-mounted for fingertip access: integrated switchbank for instant control of the modes.

▶ Active-Level technology at work: it automatically kicks in when weight is added to the bed, maintaining a constant and level profile.

# DESIGNED FOR MULTITASKING.

## INVINCIBLE

+2.0 in.

**OFF-ROAD 2 MODE.** Provides generous ground clearance for the path or trail, with expansive angles for approach, departure and breakover.

Properly secure all cargo.

## CAPABLE

+1.2 in. front; +0.9 in. rear

**OFF-ROAD MODE.** Outstanding ride balance combines with extra clearance when your off-road scenarios are less severe than those warranting Off-Road 2 Mode.

## STREAMLINED

-0.6 in.

**AERO MODE.** Automatically lowers the vehicle during highway speeds; aerodynamic drag is mitigated, "body roll" is reduced—and fuel efficiency is measurably improved.

## COMFORTABLE

-2.1 in. front; -1.7 in. rear

**ENTRY/EXIT MODE.** Lowers the vehicle when stopped for easier entry/exit, loading/unloading and convenient trailer hooking/unhooking.

Mopar. Running Board shown.

# THE RAM POWER STRUCTURE

## A LEGEND: 5.7 HEMI® V8

### PERFORMANCE THAT RULES.

Few available engines carry its clout, and even fewer offer such fuel-sipping technology. Engineering features include Variable Valve Timing (VVT), the ingenious Multi-Displacement System (MDS) (to transform this mighty V8 into a robust 4-cylinder) and the built-in efficiencies of the versatile and powerful hemispherical head design.

395 HORSEPOWER\* | 555 N-M OF TORQUE\*

### 5.7 HEMI V8 CAPABILITY\* (WHEN PROPERLY EQUIPPED)

**REGULAR CAB 6' 4" BOX**  
3'500 KG MAX TOW CAPACITY  
612 KG PAYLOAD CAPACITY

**QUAD CAB 6' 4" BOX**  
3'500 KG MAX TOW CAPACITY  
590 KG PAYLOAD CAPACITY

**CREW CAB 5' 7" BOX**  
3'500 KG MAX TOW CAPACITY  
562 KG PAYLOAD CAPACITY

**CREW CAB 6' 4" BOX**  
3'500 KG MAX TOW CAPACITY  
562 KG PAYLOAD CAPACITY

## THE PARTNER: TORQUEFLITE® 8-SPEED.

**PROVEN-TIME AND TIME AGAIN.** This sophisticated 8-speed automatic delivers dual-purpose capability. Start with impeccable performance in conditions that range from highway cruising to heavy hauling. Now balance that strength with these three powerplants that contribute to outstanding fuel efficiency. Top it all off with ease of operation; the transmission engineering provides ideal driver control with manual gear selection via steering wheel-mounted buttons.

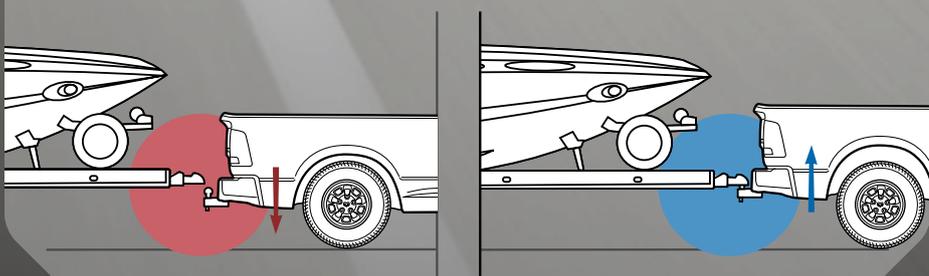

# SMART TECHNOLOGY FOR

**ELIMINATE LIFE'S UPS AND DOWNS.** Boost capability and convenience. The available Active-Level™ Four-Corner Air Suspension System delivers five modes of operation. Crucially, it makes trailering a breeze, simplifying ball/hitch alignment. The bigger picture? The system counteracts weight from trailering/hauling, maintains an even and level profile when loaded, and keeps constant the rake from the front end to the rear of the trailer.

**SUSPENSION MANAGEMENT** is at your fingertips. The dash-mounted integrated switchbank lets you raise or lower the vehicle through the available Active-Level Four-Corner Air Suspension System, and also lets you control the available trailer brake gain while towing.

# YOUR 3500KG MAX TOWING.\*

**STAY AHEAD OF THE GAME. LOOK BACK.** Make towing a cinch. Available ParkView® Rear Back-Up Camera¹ with available Active Grid Lines is a natural for aligning the trailer with the hitch ball.

**DOZENS OF MENU OPTIONS** include data about the available trailer brake controller. This reading signals that the brake is at 50% of total operation with a 3.5% gain. You'll control the gain that's right for the terrain with the center stack-mounted trailer brake controller.

**COVER EVERY ANGLE.** Monitoring your trailer is critical. Extra-wide available trailer-towing mirrors on each side are the answer. Measuring a substantial 7 x 11 inches, they offer a maximum view, with a wide-angle mirror for peripheral traffic.

Ram 1500 embraces road manners, comfort and capability with the same fervor that it welcomes safety and security. Standard on every model is the indispensable Electronic Stability Control (ESC)<sup>2</sup> system. Attributes of ESC<sup>2</sup> are comprehensive, and include:

- ▶ Help regulate wheelspin, with **All-Speed Traction Control**. If slippage occurs during acceleration, automatic throttle control will reduce torque; in extremes (like accelerating from pavement to ice), it will apply the brakes and reduce the engine power to maintain control.
- ▶ Tow with confidence, using **Trailer Sway Damping**<sup>2</sup> which detects yaw and applies selective brake pressure on the tow vehicle's opposite side to counteract and reduce the sway.

The Ram 1500 braking system features optimized pedal travel to provide quick power assist. Rear wheel-speed sensors are positioned for protection against road elements. ESC<sup>2</sup> features multiple assets for braking, and it even includes vehicle control when stationary. Most notable are:

- ▶ Stop securely, with **Antilock Brake System (ABS)**. Monitoring each wheel's speed, the Ram 1500 ABS design also incorporates back-up braking should one of the two braking circuits be compromised.
- ▶ Balance the braking. **Electronic Brake-Force Distribution** regulates brake pressure from front to rear to minimize stopping distances.
- ▶ Anticipate potential trouble. **Ready Alert Braking** senses when the driver's foot is lifted from the accelerator; it applies an imperceptible brake force to ensure that pads and discs are lined up should an emergency stop be required.
- ▶ Factor in the weather. **Rain Brake Support** automatically and seamlessly activates when the driver turns on the windshield wipers; all brake calipers gently pulse against their respective rotors to remove water from the pads.
- ▶ Make it home, with **Hydraulic Boost Compensation**. Should a failure occur in the vacuum brake booster or any related line (say, a rupture occurred from tough off-roading), the brake controller will run the ABS pump; our system is so sophisticated, it conveys the problem to the driver. The brakes perform as normal until the failure is serviced.
- ▶ Stay still, with **Hill Start Assist**. When the vehicle is angled on an incline, this system keeps your Ram stationary for two seconds after the brakes have been released or until the accelerator is depressed.
- ▶ Indispensable protection: **ParkSense<sup>®</sup> Front and Rear Park Assist**<sup>1</sup>. This available feature uses integrated sensors with ultrasonic waves to detect objects as far as 47 inches\* away from the bumpers. Read-outs located in the gauge cluster display team up with audible chimes to notify the driver of proximity to front and/or rear objects.

▶ **Air Bag<sup>3</sup> Technology**  
Ram surrounds you with protection, including advanced multistage front air bags, supplemental front-seat side-mounted air bags, and side-curtain air bags.

▶ **Side-Impact Door Beams**  
Designed with forgiveness in mind, these door beams are engineered to absorb impact force from every angle.

▶ **Dynamic Front Crumple Zones**  
These crumple zones are engineered to bear the worst of any impact, helping keep passengers safe and secure.

▶ **ParkSense Front and Rear Park Assist**<sup>1</sup>—Available

▶ **Hydraulic Boost Compensation**

▶ **Hill Start Assist**

▶ **Available ParkView<sup>®</sup> Rear Back-Up Camera**<sup>1</sup> Displays the rear image in the rearview mirror (with Radio 3.0) or on-screen with dynamic grid lines.

▶ **Auto High-Beam Headlamp Control**—Available

# IT'S TOTALLY ABOUT YOU.

NAV ASSIST | REAL-TIME VEHICLE INFO | VEHICLE SYSTEMS MONITORING | CUSTOMIZABLE

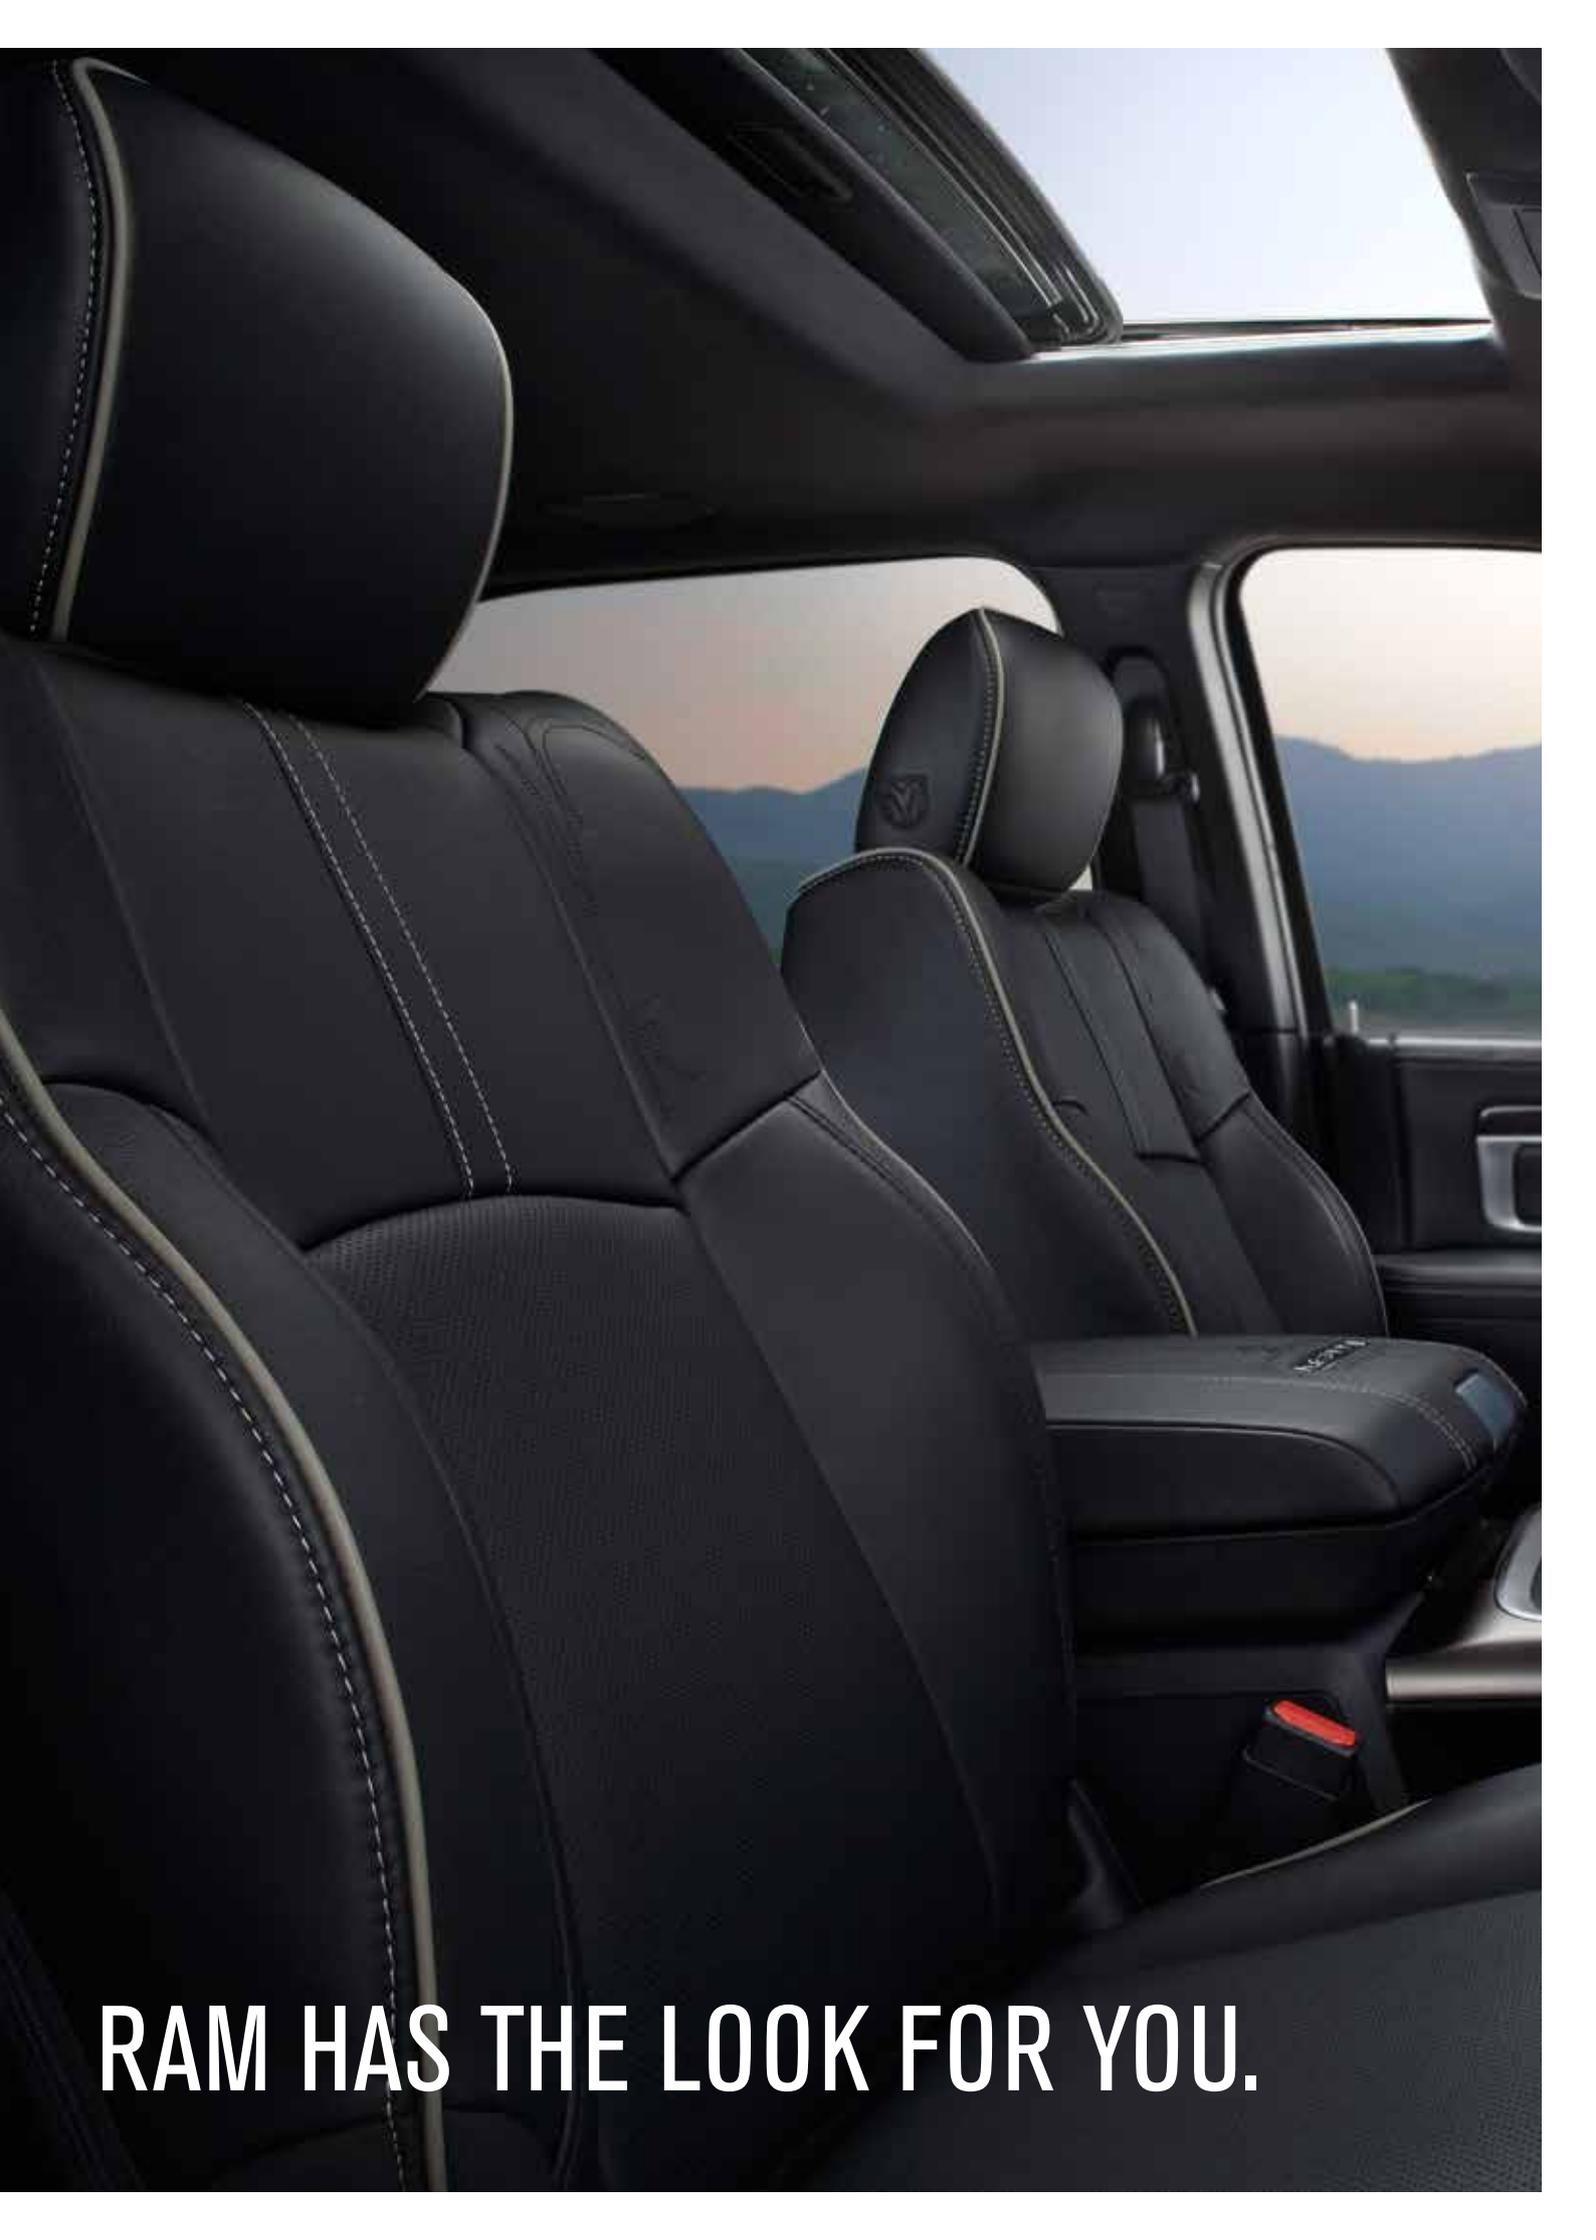

## FAST LANE TO THE INFORMATION HIGHWAY.

Ram 1500: a rolling powerhouse of knowledge, with up-to-the-second data bolstered by state-of-the-art communications technologies...and all in your command. The available full-color seven-inch Driver Information Display is customizable to your exact desire, utilizing some 34 menu options and eye-friendly graphics that convey real-time vehicle information in detail.

On select models, a six-ring instrumentation cluster telegraphs crucial driving information, and you can always move up to the available 8.4-inch touchscreen media center. Even better: you can utilize cutting- and leading-edge telematics through Uconnect®— an option that embraces everything from tunes and info to vehicle control. That's Ram 1500.

**FROM RUGGED TO REFINED,**

**RAM HAS THE LOOK FOR YOU.**

# SIX-PACK WITH NO CRUNCHES. LARAMIE®

► **SCULPTED, SOFT AND SUPPLE—WITH ROOM FOR SIX.**

The refinement of the Ram 1500 Laramie interior: standard seating that easily accommodates six, heated and ventilated leather-trimmed seats for the driver and front passenger, heated steering wheel, power adjustable pedals with memory, Dual-Zone Automatic Temperature Control and Premium II 10-speaker audio system with subwoofer.

U.S. screen shown.

U.S. Uconnect® screen shown.

**RADIO** Get the sound going via available features like CD/MP3s, remote USB port, audio jack, Integrated Voice Command® and Bluetooth® Streaming Audio.

**PHONE** Prioritize different phones so multiple drivers can connect and call. Uconnect syncs with your compatible phone allowing you to drive safely with hands-free® phone capability. Route all incoming calls to voice mail and suppress text message notifications by enabling the Do Not Disturb feature so you can keep your full attention on the road.

**APPLE CARPLAY™** A smarter, safer way to use an iPhone® inside your vehicle and seamlessly integrate it with the Uconnect touchscreen and Siri® Eyes Free? You can make calls, access music, send and receive messages®, get directions optimized for traffic conditions and more, while staying focused on the road.

**ANDROID AUTO™** Automatically provides a safer way to use Android™ while driving. Share information, place phone calls or send and receive messages®, while you easily access the best of Google: maps with voice-guided navigation, music, and Google Search, which lets you ask any question by voice command®

# TECHNOLOGY DESIGNED FOR THE REAL WORLD.

**INTEGRATED VOICE COMMAND<sup>®</sup> WITH BLUETOOTH<sup>®</sup>** Access a favorite playlist on your music player or USB drive with simple voice commands<sup>®</sup>. Ask for directions to a certain address. Or make a call. No problem. Siri<sup>®</sup> Eyes Free<sup>7</sup> responds to natural language commands, so controlling your compatible iPhone<sup>®</sup> and your vehicle's sound system and entertainment options is easy and effortless.

**NAV** Enter your destination with just your voice<sup>®</sup>—the route is calculated in seconds and displayed on the spacious 8.4-inch touchscreen. Then get turn-by-turn audio directions, so your eyes can stay devoted to the road.

**CONTROLS** Via the touchscreen, you can adjust your seat or cabin temperature, select a new music station or make a call. So sit back, get comfortable and experience all the ways Uconnect<sup>®</sup> makes the ride more enjoyable.

**RAM PICKUPS**  
BUYER'S GUIDE

# RAM 1500: THIS

# TRUCK CAN DO IT ALL.

**RAM 1500. LIGHT-DUTY BY CLASS, SEVERE-DUTY IN ATTITUDE.** Ongoing developments and innovations take these trucks into the geography where they're the most comfortable: delivering uncompromising capability and stellar levels of comfort, with powertrain choices and suspensions that benchmark the industry and put the competition to shame.

Our directive to the engineering team: design and build on strengths so good, they deliver capability at every turn. Ram 1500 achieves it through innovation, powertrain selection and unflinching get-it-done attitude. The Ram 1500 team explored new ground, examined every aspect of technology, and focused on efficient performance, formidable strength and state-of-the-art connectivity. The overall accomplishment: take you forward by standing out in every field.

Count on capability everywhere you look. When it comes to powertrains, Ram 1500 offers the ideal partner for your engine of choice—the unique TorqueFlite® 8 automatic transmission, with close-ratio gearing for effortless acceleration and great fuel efficiency. Mated to the award-winning Pentastar® V6 and EcoDiesel V6, with availability for the legendary HEMI® V8 engine, the TorqueFlite 8 delivers flawless performance.

Tested to jaw-dropping extremes, Ram 1500 delivers it all: durability over the kilometers and mountains, reliability designed for years of service and all of it backed up by our warranties as tough as the truck itself.

You need a pickup. You need strength. You found it all—in the proven and capable Ram 1500.

1. Always look before proceeding, electronic drive aid is not a substitute for conscientious driving; always be aware of your surroundings. 2 No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. 3 The Advanced Front Air Bags in this vehicle are certified to the new U.S. Federal regulations for Advanced Air Bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. 4 Based on latest available competitive information. 5 Apple CarPlay requires a compatible mobile device connected via USB cable to the Uconnect system. To use Android Auto on your car's in-dash display, you'll need an Android Auto compatible vehicle or aftermarket stereo, an Android phone running 5.0 (Lollipop) or higher and the Android Auto app. Data plan rates may apply. 6 Requires a mobile phone equipped with the Bluetooth Hands-Free Profile. Visit UconnectPhone.com for system and device compatibility. 7. Siri Eyes Free requires an iPhone equipped with Siri. Certain features not available while the vehicle is in motion. iPhone must be within active cellular range. Customer's existing iPhone data rates apply to Internet-supported features. 8 Voice Text Reply and Voice Texting features require a compatible mobile device enabled with Bluetooth Message Access Profile (MAP). iPhone and some other smartphones do not currently support Bluetooth MAP. Visit www.UconnectPhone.com for system and device compatibility. Ensure MAP is ON and incoming message notification is enabled. Vehicle must be registered for Uconnect Access and you must fulfill minimum subscription requirements. Also requires the use of a compatible smartphone that supports text messaging and Bluetooth. Check UconnectPhone.com for device compatibility.
